

Infinity Energy Limited

("Infinity" or the "Company")

Update

As previously announced, the Company has submitted a Prospectus to the FCA regarding listing of Infinity Energy Limited on the Standard Segment of the Main Market of the London Stock Exchange. There are still some conditions which need to be satisfied in order to complete the listing process, including raising funds in order to meet the Company's working capital requirements.

The Company, together with its brokers, continues to pursue possible funding routes so that the listing can be completed, however, due to the COVID-19 pandemic combined with the low oil price this has proven challenging.

While there can be no guarantee that the Company can list, the Board believes the COVID-19 situation will ease at some time and the Company continues with its efforts to obtain the listing despite the situation at hand.
